

Flush Mount Bag Stem

The flush-mount bag stem allows you to use the full length of the vacuum bag without worry of project surface imperfections. Be sure to use the flange material type that matches the vacuum bag material type.

Read through all of the instruction steps before you begin.
This product is distributed, but not manufactured, by VeneerSupplies.com.

Warning: Brass products may contain chemicals known to the state of California to cause cancer or reproductive toxicity. Visit www.p65warnings.ca.gov for details.

Application Instructions:

1. Mark the location on your vacuum bag where you wish to install the bag stem. For convenience, we recommend installing the stem 15" out from the bag opening. The location does not affect the vacuum inside the bag.
2. In the selected area, cut a 3/8" diameter hole in the vacuum bag using scissors or a razor knife. The hole does not need to be perfectly round since the stem will be mounted on the outside of the bag.
3. Place a 3" x 3" piece of wood or wax paper inside the bag directly under the hole to prevent the adhesive from bonding the top side of the bag to the bottom.
4. A small tube of cement is included with your bag stem kit. This cement will work with both vinyl and polyurethane materials. Follow the safety instructions included with the cement and wear appropriate eye, skin, and lung protection when using this product.
5. In a well-ventilated area, clean the mating surfaces of the stem flange and the vacuum bag with acetone. A synthetic abrasive pad will help maximize the effectiveness of the cleaner. The cleaned areas should look dull and abraded.
6. The included cement works with vinyl and polyurethane. Apply the cement to the bottom of the flange and to the vacuum bag area where the bag stem will be attached. Be sure there is full coverage on both pieces and keep in mind that the stem is going to be mounted on the outside of the bag.
7. For vinyl, allow 3 to 4 minutes for the cement to set up. Then apply the flange body directly over the port hole (step 2). Using adequate pressure, smooth out the flange until any air bubbles are removed. A wood roller is helpful with this process. Allow 1 hour of drying time before using the vacuum bag.
8. For polyurethane, immediately set the flange body directly over the port hole after application of the cement. Gently massage out any air bubbles but try not to squeeze out too much of the cement. If the flange will not sit flat, cut a 3" x 3" scrap of 3/4" thick plywood and drill a 1" hole in the center. Place this over the bag stem and put some weight on top. Allow 24 hours of drying time before using the vacuum bag.
9. Insert the brass barbed stem core that is included with this kit. Proceed carefully since the edges of the barbs are sharp.

The flush-mount bag stem is designed to work with our lock-on connector which is available for 1/4", 3/8", and 1/2" ID vacuum tube sizes. Visit VeneerSupplies.com for details.

Terms and Conditions

PLEASE READ THIS SECTION CAREFULLY. IT CONTAINS A BINDING ARBITRATION CLAUSE THAT MAY SIGNIFICANTLY AFFECT YOUR LEGAL RIGHTS, INCLUDING YOUR RIGHT TO FILE A LAWSUIT IN COURT AND TO HAVE A JURY HEAR YOUR CLAIM(S).

The wording "We", "Us" and "Our" shall herein include JWW Services Inc., JoeWoodworker.com, VeneerSupplies.com, and its representatives, owners, and employees. Your use of this product is governed by the policies, terms and conditions set forth below and such use of the content and principles indicates your acceptance of these terms and conditions. These terms and conditions shall supersede any subsequent terms or conditions. JWW Services Inc. reserves the right to make changes to these terms and conditions at any time.

We do not make representations or give warranties regarding the use of this article. All content is provided for use as is without warranty of any kind. User indemnifies and holds JWW Services Inc. harmless from any and all actions, civil or criminal, claims, liabilities, and losses including our attorney fees, arising out of the use of this instruction set. The contents of this document are to be considered informational only and that which is not from an expert. This document, provided by JWW Services Inc., is non-expert opinion only and offered without warranty. You are solely responsible for your access to, use of and/or reliance on any content. You agree to conduct any necessary, appropriate, prudent, or judicious investigation, research, and due diligence with respect to the safe and appropriate use of its contents.

JWW Services Inc. shall not assume any responsibility for any incident, accident, or other harmful occurrence in regard to the information or use of the information contained in this document. No warranty or representation, either expressed or implied, is made with respect to the quality, accuracy, safety or fitness for any part of this document. In no event shall we be liable for direct, indirect, special, incidental, or consequential damages arising from any information contained herein. The user/builder/owner of the system shall assume all risk. The full or partial assembling of this system is an agreement that you will not hold us liable for any circumstances or costs that may arise from the use of these parts and this system.

It is also agreed that we do not provide any form of insurance of fitness of this device for any use: commercial or otherwise. You hereby agree to hold us harmless for any mishap, injury, or untoward occurrence. Users of this document and the equipment described herein do so at their own risk and assume complete responsibility for the use of that information and equipment by themselves or others. We are not responsible for any personal injuries to the user/builder/owner or others associated with its uses, or property damage resulting from building or operating the equipment described herein. Maintaining equipment and evaluating its suitability for a specific situation are the sole responsibilities of the user/builder/owner. You agree to use the information contained in this document at your own risk and to use good judgment during the use of the equipment described in this document at all times and to work safely within your own abilities.

We shall not be held responsible for typographical errors. The products contained in this kit are distributed, but not manufactured, by VeneerSupplies.com.

Resolution of Claims or Disputes

Any dispute or claim between you and Us arising in any way out of the use of this site or any product contained within this site will be resolved by BINDING ARBITRATION, rather than in a court. This obligation applies to both parties, regardless of the legal theory or cause of action involved (tort, product liability, misrepresentation, negligence, etc.). Both you and Us agree to waive the right to bring a lawsuit to be decided by judge or jury regarding any such claims or disputes, and instead agree to have such claims or disputes resolved by an arbitrator.

Governing Law

The arbitrator shall be agreed upon by the parties. The arbitration shall take place in Harford County, MD in accordance with Maryland law.

Procedure

If the parties cannot agree on a mutually acceptable arbitrator, the arbitration will be conducted through the American Arbitration Association ("AAA") and in accordance with its rules. The AAA's rules are available to view at <https://www.adr.org>. Both parties agree to equally share the administrative expense of the arbitration, unless the arbitrator finds that the claim was brought in bad faith and orders one party to pay the cost of the proceedings as part of the arbitration award. Both parties are responsible for paying the costs of their own counsel, experts, and witnesses. Judgment on the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. Before commencing an arbitration under this Agreement, the aggrieved party will first present the claim or dispute to the opposing party by (certified mail, regular mail). Our notice address to submit claims or disputes is: JWW Services Inc., 217 E. Jarrettsville Rd., STE 5, Forest Hill, MD 21050. If the claim or dispute is not resolved within 90 days, the aggrieved party can commence arbitration proceedings in accordance with this Agreement.

Class Action Waiver

All arbitrations conducted under this Agreement shall be conducted only on an individual (and not a class-wide) basis; and an arbitrator shall have no authority to award class-wide relief. Your use of this document indicates your acceptance that this Agreement specifically prohibits you from commencing arbitration proceedings as a representative of others or joining in any arbitration proceedings brought by any other person.

Severability

If any part or any provision of this Agreement shall be finally determined to be invalid or unenforceable under applicable law, that part shall be ineffective to the extent of such invalidity or unenforceability only, without in any way affecting the remaining parts of said provision or the remaining provisions of this Agreement.
